CAMP FROG 2024

Camp Frog places extra seizure response-trained staff and medical personnel into existing YMCA summer camp programs, allowing children who have seizures to enjoy summer camp just like their peers.

The EAWCP provides counselors in the cabins along with the camp program staff. All of the camp staff is fully trained by the EAWCP. Our counselors will help to provide seizure recognition and first aid, build confidence, and provide guidance to campers in a fun-filled atmosphere.

In addition, a pediatric neurologist and a nurse will be available on-site during the entire week of camp. This medical staff supervises medication administration and any seizure-related medical care required by our campers.

Families that can not afford to pay camp fees can apply for a G. Peter Rockwell Camper Scholarship made available under the Steve "Froggy" Morris/G. Peter Rockwell Endowment Fund. Partial and full scholarships are available for payment of camp fees.

This scholarship application is automatically included in the full registration packet which you will receive after pre-registering your child for camp.

Camp Frog at Camp Fitch June 16-22, 2024 North Springfield, PA

Camp Fitch is a YMCA camp on 450 acres along the shores of Lake Erie.

An array of activities are offered to the campers including archery, horseback riding, climbing towers, sand volleyball, basketball, soccer, paintball, riflery, miles of hiking trails, nature studies, arts and crafts, fishing, and much more. Camp Fitch also has an inland lake for boating, an Olympic size swimming pool, and a mile of the sandy Lake Erie beach.

For more information on Camp Fitch, visit www.campfitchymca.org or call 330-744-8411.

Eligibility

For 2024, the Epilepsy Association of Western and Central PA invites children and teens between the ages of 8 and 18 years old having completed 3rd grade and who have a primary diagnosis of epilepsy or seizure disorder to attend Camp Frog 2024! The EAWCP strives to make a camping experience available to all children with epilepsy; however, campers must meet all basic eligibility criteria.

The health and safety of all campers is our number one priority. Camp Frog is a fully integrated camp program. Campers need to have the skills to function independently within an inclusionary setting at all times. Campers need to possess the ability to participate and function within both small and large groups, **without** one-on-one assistance or supervision. Independent self-care skills are required. This includes but is not limited to independent toileting, bathing, communication, and feeding skills.

All campers must complete a Camp Frog registration packet and new campers must meet with an EAWCP staff member in person before the registration process is complete. Final acceptance and confirmation of eligibility for Camp Frog is determined through a medical review of the camper's application by both the camper's personal physicians and the medical staff supervising Camp Frog.

The EAWCP encourages participation by everyone. If your child has any special needs, physical or behavioral, please contact us as soon as possible to discuss eligibility at 800-361-5885. We will work with your family and the private camping facilities to explore potential accommodations of your child's special needs. **Children who may need specific accommodations must be fully registered for camp and accommodations must be confirmed at least one month prior to the start of camp.** Please register early and contact the EAWCP staff if you need to discuss accommodations. If your child is not eligible for Camp Frog, we may be able to help you find an appropriate camp setting for your child such as the EAWCP's Camp Firefly program.
